

# Leadership in Plasma Management

Full-service collection  
solutions for the global  
plasma community

# Serving the global plasma industry

At Haemonetics, we understand the pressures you face—from costs to increasing regulations to managing your supply chain. Our comprehensive portfolio of products and services is designed to support multiple facets of your operations, helping you achieve efficiencies and manage costs. Our long-standing commitment to donor safety, understanding our customers' collection and fractionation processes, delivering product quality and reliability, designing equipment that is easy to use, and providing comprehensive service support and training programs, is why we continue to be the global partner of choice.

Solutions to help our customers collect with confidence, improve operational efficiencies, and decrease costs

## An ongoing commitment to **donor safety** and satisfaction

- Shared commitment to ensure the safety and comfort of your donors
- Built-in alarms and safety mechanisms on all our devices
- Extensive clinical testing conducted on all the components as part of an overall collection system
- Adherence to international regulatory compliance
- New technologies to enhance the donation process are continuously pursued

## **Dedicated customer support**, training, and process improvements

- Customer service available in all geographic regions
- 24x7 customer support
- Onsite support for repairs and preventive maintenance for the PCS®2
- Electronic order processing
- On-site training to assist you in optimizing the use of our devices and integrated software solutions
- Comprehensive training and ongoing support for the PCS®2
- Process efficiency consulting services

## A **reliable supply chain** helps ensure business continuity

- Dual sourcing strategy ensures that we have at least two manufacturing sites for each product, which helps reduce the risk of a service disruption
- Global manufacturing facilities are FDA-registered and ISO-certified
- Manufacturing sites are located in key geographies with proximity to customers

## Our **supply chain management model** streamlines ordering and fulfillment

- Automatically replenish soft goods inventories based on system triggers
- Improve your procurement, receiving, and payment processes
- Reduce your inventory levels and eliminate expedited order charges
- Make the process simple for the center managers, freeing them to do other tasks

## About Haemonetics

Haemonetics is *THE* Blood Management Company. Our comprehensive portfolio of integrated devices, information management, and consulting services offers blood management solutions for each facet of the blood supply chain, helping improve clinical outcomes and reduce costs for blood and plasma collectors, hospitals, and patients around the world. We believe that through proper blood management, our products and services help prevent a transfusion to the patient who doesn't need one and provide the *right* blood product, at the *right* time, in the *right* dose to the patient who does.

## The Haemonetics advantage

- Long history of innovation in plasmapheresis
- Ongoing commitment to donor safety and satisfaction
- Reliable supply chain
- Customer support, training, and process improvements
